

The following is an examiner's statement of reasons for allowance:

Renumbered as claims 1-28 for pending claims 34-41 and 43-62.

Claims 34-41 and 43-62 of the current application are allowed for the reason of none of prior art of record teaches nor suggests "a selecting section for selecting one of a first mode and a second mode, the first mode being a mode in which, in a case where both a color page and a black-and-white page are to be formed on a single sheet, images for all the pages to be formed on the single sheet are formed by the color image forming section, the second mode being a mode in which, in a case where both a color page and a black-and-white page are to be formed on a single sheet, an image for the color page to be formed on the single sheet is formed by the color image forming section and an image for the black-and-white page to be formed on the single sheet is formed by the black-and-white image forming section, wherein the selecting section selects the first mode in a case where sheets having images formed thereon beforehand by the color image forming section are mixed without passing through the black-and-white image forming section and selects the second mode in a case where the sheets are mixed with passing through the black-and-white image forming section."

The closest prior art Toshihiro (JP 2000-222148), discloses printing device to print color page and black and white page in different printers, either singularly or in combination with other cited reference obvious fails to anticipate or render the above limitations.
